

# pulse™

S M A R T P E N

## Receive:

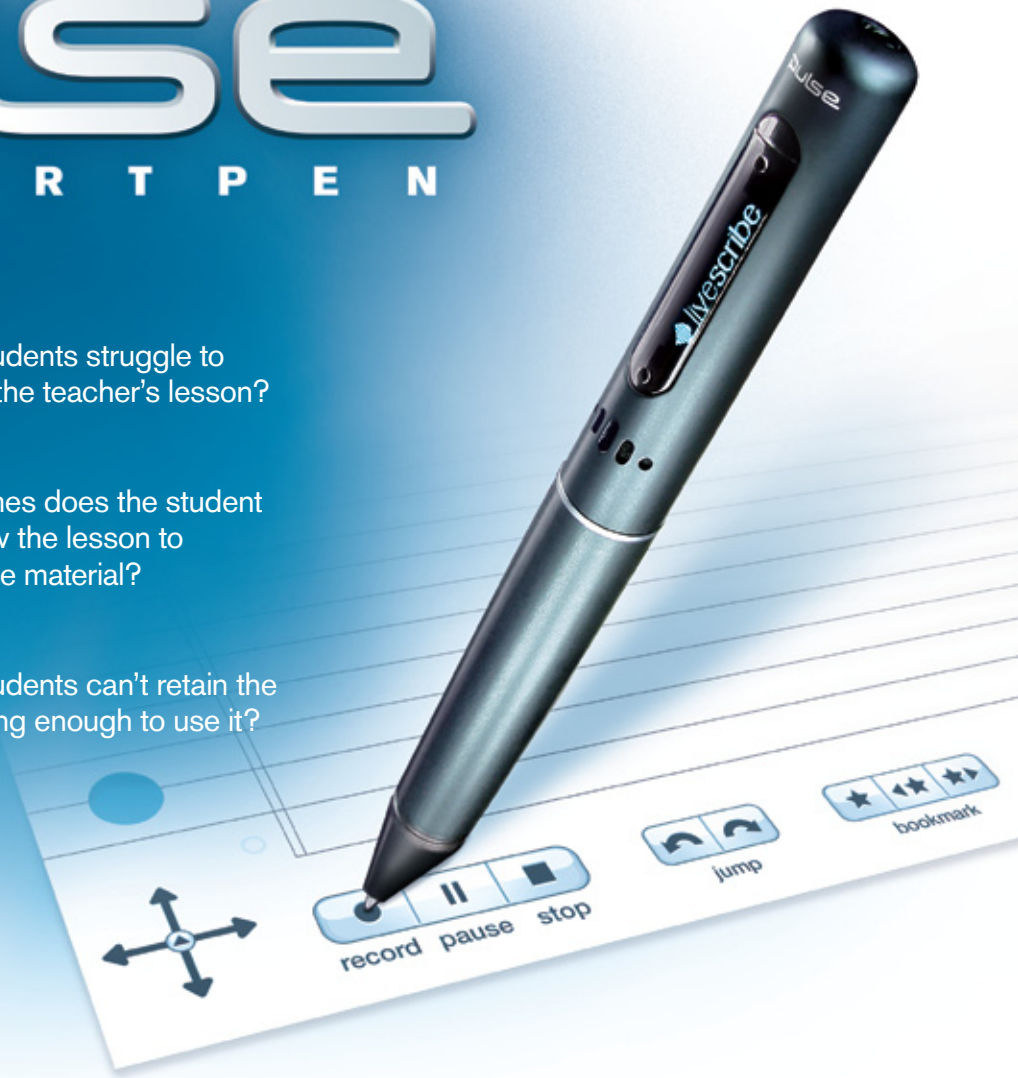

How many students struggle to keep up with the teacher's lesson?

## Review:

How many times does the student need to review the lesson to understand the material?

## Retain:

How many students can't retain the information long enough to use it?

## A Simple Solution for All Students

Livescribe's Pulse smartpen is an intuitive, pen and paper solution that captures everything students write and hear in the classroom, and enables easy, on-demand access to that information, giving all students a simple and more effective way to receive, review, and retain what they've learned in class.

## A Teacher At Your Fingertips

Provides instant, mobile, on-demand access to teacher instruction any time, anywhere.

## Universal Assistive Technology

Improves the ability to receive, retain, and review information for all students, subject areas and grade levels.

## Special Populations

Ideal for English language learners, special needs students, or home-bound students, the Pulse smartpen captures teacher instruction and provides them unlimited access for review.
